Siemens India Hiring Manager

Siemens Industry Software
(India) Pvt. Ltd. Tower C,
Panchshil Business Park,
Cummins India Office
Campus Survey No. 21,
Balewadi Pune, Maharashtra
411045 INDIA

Dear Hiring Manager,

I am writing to express my interest in the Software Developer position at Siemens. With a Bachelor's degree in Computer Engineering from Ajeenkya D Y Patil School of Engineering and comprehensive experience in both frontend and backend technologies, I am excited about the opportunity to contribute to Siemens' innovative projects.

Throughout my internships and academic projects, I have developed skills in designing and developing dynamic, responsive websites. Most recently, as a Web Development Intern at Teehzone Corporation Pvt Ltd, I created a fully functional website for their child company, Spyinte, using HTML, CSS, JavaScript, and PHP. I have also built a QR-based ticket entry system as part of a team project that utilized various web technologies, including MySQL and Bootstrap.

At Siemens, I am particularly drawn to the challenge of integrating cutting-edge technology with real-world applications, and I am confident my technical proficiency and problem-solving mindset would make me a valuable asset. My experience working with technologies such as React.js, Node.js, and AWS will allow me to contribute effectively to Siemens' mission of driving digital transformation.

I would love the opportunity to discuss how my skills and experiences align with the needs of Siemens and how I can contribute to the success of your team. Thank you for considering my application.

Kind regards,

S.G. Dahake.
